II & III Year B.Sc. STUDENTS

Driven by the utmost value of 'serving the student community', this Institute has impeccably imparted the required knowledge and skills even during these tough times through online classes and by closely monitoring the progress of the students with care and concern enabling the students to successfully march into the 4th and 6th semesters.

As per the directions from competent authority, the Institute is now open for physical classes and we welcome all the Final Year Degree students on board to continue their regular classes by reporting physically and adhering to the covid-19 appropriate behavior norms.

We understand that the pandemic is still active and has impacted the people in all spheres of life. Equally keeping in mind the academic requirements that each prospective student should fulfill, we encourage the students to pay the fees for the 4th semester and 6th semester on or before 31st March 2021. Your cooperation in this regard will be highly appreciated and this will also enable us to proceed further in maintaining the administrative procedures.

The above mentioned fees must be paid online through SB Collect.

We wish all the students a safe, healthy and a fruitful semester.
